

# WARM WELCOME

Warm Welcome is a project providing vital advice to new and expectant parents. The arrival of a baby into a family already experiencing hardship can greatly increase the risk of fuel poverty.

Advice on managing fuel bills and energy efficiency can make a big difference at a time when having a warm, safe home is of paramount importance.

Contact us to find out how National Energy Action (NEA) will deliver:

- **Community advice sessions** helping pregnant people and their families manage their fuel bills and access all the support available to them.
- **Free training for frontline professionals** to provide ongoing advice and support for parents and communities.

Do you work with new and expectant parents? If you would be interested in a face-to-face or online session, please contact [bethany.steer@nea.org.uk](mailto:bethany.steer@nea.org.uk).

If you would like to learn more about the free training National Energy Action (NEA) offers, please contact [lynsey.thompson@nea.org.uk](mailto:lynsey.thompson@nea.org.uk).

We are also running regular live advice sessions on [facebook.com/Nationalenergyaction](https://www.facebook.com/Nationalenergyaction) and [instagram.com/nea\\_ukcharity](https://www.instagram.com/nea_ukcharity). Please follow us to stay updated. You can also follow us on [twitter.com/nea\\_ukcharity](https://twitter.com/nea_ukcharity) and on [nea.org.uk/what-we-do/projects/warm-welcome/](https://www.nea.org.uk/what-we-do/projects/warm-welcome/)
