

My Voice, My Ideas, My Planet

"Looking After Our World – Together"

Remember, your voice has power, your ideas can change the world. You don't have to do everything; every small action makes a difference!

1. My voice is important because...

(Write or draw your thoughts)

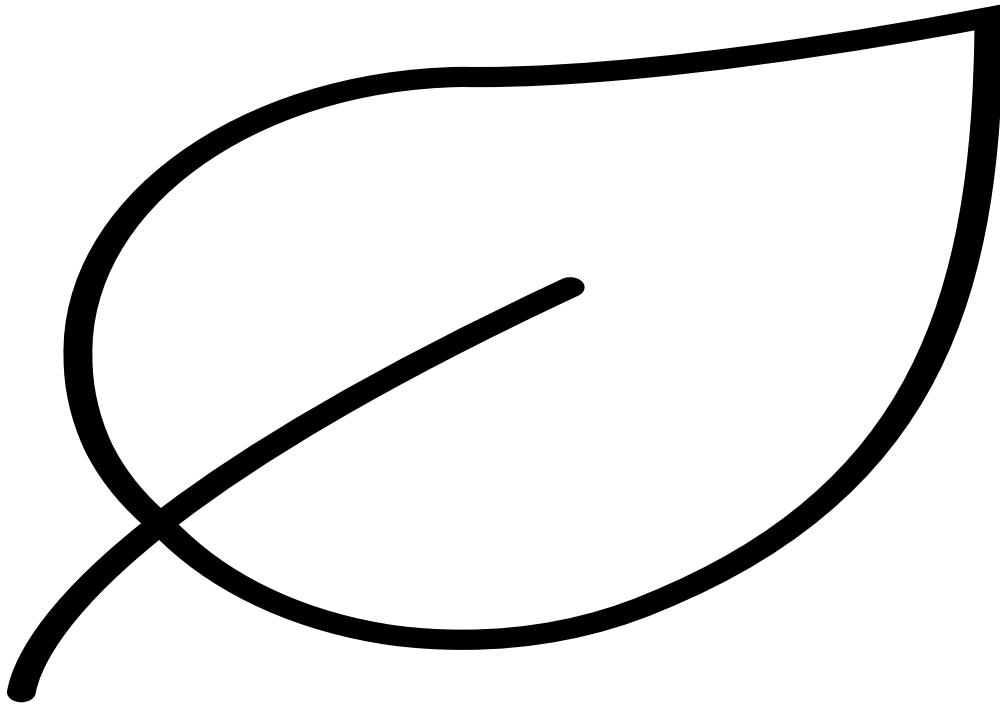

2. Something I really care about in this world is...

(This could be nature, animals, people, clean air, water, or something else.)

3. A small change we could make at school to help others and the earth is....

(This might be about food waste, energy, recycling uniforms and other equipment, how you travel to and from school or something else. Write, draw or decorate your ideas here, what is your action?)

4. My message to grown-ups and leaders is.....

"If I could tell you one thing about climate change and the future, it would be..."
